

All fairies are said to have originated in Ireland. All around the country you will find fairies. If you would like a fairy to come and live in your home, there are just two simple rules you need to obey; you must love your fairy, but most importantly you must believe in your fairy. Once these two rules are abided by, your fairy will stay with you forever.

At The K Club we have a number of very busy fairies and if you look carefully through our enchanted gardens you will find lots of special fairy doors which belong to our fairy residents..

They all have special jobs and we have written a little bit of information on each of them overleaf.

Fairy Dust Maker

Every fairy community has a fairy dust maker. This position is held by some of the wisest fairies in the world! The fairies must study for 100 years in a special school which teaches them how to source the ingredients necessary to create the special dust! The elders make sure that each family receives equal amounts of fairy dust so that they can carry out their duties and grant the wishes of humans all around the world!

The Tooth Fairy

In order to collect teeth, this fairy must sit three exams in Fairy School. It may seem like a very simple task to me and you, but it is quite specialised and difficult to do especially when a tooth is left under a sleeping human's pillow. Sometimes we forget that fairies are not just taking care of us individually but that they must visit many humans each night! Tooth fairies are extremely quick and strong and this allows them to make many visits and carry many teeth throughout the night! Fairies love shiny things, particularly things no one else seems to want, like old buttons, charms and paperclips. They don't however like human money. That is why they like to give it away when they collect your teeth.

Wish recorder & Story Teller

The wish recorder keeps track of all the questions and wishes asked by humans. These wishes are then written up in a special book and one is read out each day for the whole community. This helps all the fairies in each area to hear what the humans need to help them be happy! Humans must remember to keep their wishes small so that the fairies can try their best to make them all come through! The Story teller makes sure that when all wishes are granted they are also recorded so that the stories of granted wishes can be told at fairy school and by the elders at the secret meeting place in the main fairy tree!

Treehouse Builder

The fairy carpenters are responsible for designing and building all homes for fairies and pixies! You can't open your fairy's door as the lock is enchanted with fairy magic. Of course your fairy will have the key anyway, but even if you had the key, you would not be able to unlock the door. The lock can only be opened by a real fairy. Humans must remember that if we try to open a fairy door or attempt to remove it from where it has been placed, we will no longer be helped by the fairies and our wishes will not be granted! A fairy's home is one of its most sacred places and we must respect them!

Head Elder

The Head Elder is the leader of each fairy community. They are fairy's that have worked in every job in the community and are professors and teachers to the younger fairies! The Head Elder selects which fairy's look after each human and always pick a match with a similar personality. This is the highest honour a fairy can receive!

Wing Fixer

Fairies' wings are made of a special material called Taffaria. This ultra-strong, silky and transparent material is clear on first glance but actually has all 7 colours of the rainbow in it. Red, purple, yellow, pink, blue, green and orange. Each fairy's wings will have one slightly brighter colour to match their personality. Just like humans, fairies must take care of themselves. Each fairy community has a wing repair shop which helps all the fairies in the community to stay quick and nimble so that they can grant the wishes of humans and pass good luck and magic all over the world! Some say the wing fixer is most important job of all fairies as only those with working wings can grant the wishes of humans!

Worry Stealer

Some fairies have a talent for hearing wishes. We are told it is like hearing whispers in the wind to them. They know exactly who a wish has come from once they hear it. Other very special fairies can also take your worries away. These fairies use the energy that are found in worries to send to the fairies who grant wishes. This means a worry becomes a wish with a little fairy magic!

Dream Watcher & Wish Granter

Fairies are very good at blowing away bad dreams. This is one of the main modules in Fairy School and they train very hard to master the skill. Fairies watch your dreams at night. They play out like a movie on the ceiling for your fairy to watch. This is one of the reasons why your fairy knows so much about you. You generally dream about your day and all that happened, therefore letting your fairy see what fun you had that day! Sometimes, as we all know, there may be some bad dream breezes. Your fairy works very hard to blow them away. Most of the time, he or she will be very successful, but there are also times when they might need a little help. When that happens, The Fairy Force are called!
